## **BRANHAM ELECTRIC SERVICE, INC.**

is a name you can trust. We value our customers, and contribute our success to providing quality care and expertise to you. Our employees are dedicated to providing customers with the best service in our field. We have developed our **Service Protection & Maintenance Plan for Businesses** to provide you the security and piece of mind knowing your electrical system will always be safe.

Branham Electric Service, Inc. is here to help save your business money. We offer several energy-saving solutions for your business. By making minor changes in your lighting, you can save hundreds of dollars per year. Some energy-saving ideas include:

- Replace incandescent bulbs with compact fluorescent (CFL) or LED bulbs.
- Upgrading older T12 magnetic ballast fluorescent lights to T8 electronic ballast and tubes.
- Further increase savings by changing to LED fixtures.
- Install Occupancy Sensors in break rooms, conference rooms, and bathrooms to automatically turn off lights when rooms are not in use.
- Install timers or photo-cells on exterior lighting to conserve energy.

Our **Service Protection & Maintenance Plan** can provide you, our customer, with peace of mind knowing you and your business will always be safe. This security is available at a minimal cost to you. For only **\$ 25.95 per month**, your business can be covered against electrical hazards. Included in this plan:

- A complete inspection yearly of the electrical equipment in your business with a written report/estimate (*\$125.00 value*).
- Discounts on service calls for the duration of the contract.
- Professional, courteous service technicians.
- Priority scheduling.
- Renewable on an annual basis.
- Special pricing on Products and Services offered (see next page).

**Please speak with your Service Representative about how you can sign-up TODAY!**
